Team Corally introduces the "10X New Generation"™ 1/10th scale on-road racer with all new features. This car's™ design is based on the World Championship winning 12X concept resulting in an easy to work on high performance driving machine. It offers great part availability since most parts on this new 10X are inter-changeable with the 12X.

The 10X New Generation uses the World's™ best materials and production methods which includes high grade graphite chassis parts, 7075T6 aluminium motorpod and graphite rear axle. This combines super low weight with high rigidity and durable on-track performance.
