Â

15-years-old Naoto Matsukura has become the youngest ever IFMAR World Champion after a dominant performance at the 1:12 Onroad Worlds in Bangkok, Thailand. The Japanese driver came here with an already impressive CV with back to back titles in his National Championship but faced with the best in the world, including all four Touring Car World Champions, he rose impressively to the challenge.

Hot property of Japanese manufacturer Team Yokomo, Matsukura was running Associatedâ€™s RC12R5.
