

New 1:12 US Wheels Rear 36mm

Contributed by REV Scale
Tuesday, 02 December 2008

These new 36mm 1:12 US Factory Wheels Rear are available next to the 38 mm US Factory Wheels. With these wheels it is possible to use smaller diameter tires while keeping the same amount of rubber on traction required by some track conditions. A popular car setup is to use 36 mm rear and 38 mm front wheels.
